THE ANTIPATHY TO FARMING.

Is it not an obvious defect in society as it exists at the present time in our country, and more so perhaps in some others, that in assigning places to all that never should be deprived of opportunity to exercise the talent they have for active usefullness, too few are retained on the soil to act the part of husbandmen, while the larger portion fly to unproductive employments, or to such callings as leave them dependent on others for their daily bread? It is not pretended, however, that though the earth was given to be the grand storehouse from which supplies of material good are to be drawn for the subsistance of all, that therefore all should be limited to following the plow, or to obtaining a livelihood by some other laborious means of extracting from the earth nutritive virtues. Man is not to live by bread alone. But as this is at least one of the indispensables in what goes to nourish and sustain human life, enough of human thought and energy should be always at hand and in actual service to produce a sufficiency for all.

But to what result is the known tendency of the popular taste, in these days, as respects the matter of obtaining food to eat and raiment to put on? Do men, as they grow up to see the need of doing something to obtain what is needful to the body, covet a spot of earth on which they may pitch their tent and ply the implements of agriculture, until they have learned by their own experience what is meant by eating one's bread in the sweat of his face? Is it not more common to see other expedients looked to and seized upon as promising pleasanter if not more remunerative methods of laying up treasures on earth and basking in the sunlight of worldly good?

It does seem to us that this matter is worthy of much more attention, serious attention than is generally given it. There *is* an antipathy to planting, sowing, reaping and the various rural labors which fill up the hours and tax the powers of those who till the soil. Why should this be? When farming is thoroughly studied, perfectly understood and intelligently practiced this evil will be remedied, and not till then.

PEACE SOCIETIES.

The Peace Cause is as old as the Christian religion, but the first Peace *Society* of modern times, was organized in the City of New York in the summer of 1815, when the sad results of our last war with Great Britain were yet fresh in the minds of the people. Thirteen years later, the *American* Peace Society was formed in Boston, so that it has been in operation more than forty-five years. Its objects are to *prevent* wars between nations and rebellions at home. If it cannot prevent *all* such, it will not labor in vain if it forestalls one in a score, or even one in a hundred, any more than Temperance Societies, because they cannot abolish *all* intemperance.

Peace Secieties in our country and Europe, hope to accomplish their objects by bringing the truth, and especially the truth of the Gospel, to bear on the custom of war. They propose, as substitutes for it, mutual forbearance—negotiation—arbitration, and ultimately a Congress, or High Court of Nations, to settle national difficulties. So numerous and influential have they become, that they have already done much for the maintainance of peace. But much more must be done, or the demon of war will continue to curse our country and the world. Surely it is better to prevent than to suffer.

The American Peace Society has various appliances for influencing public sentiment; It publishes a monthly periodical—the "*Advocate of Peace*," which is worthy of a wide circulation. It has on its catalogue about one hundred different books and tracts written with great ability, and containing facts, arguments, incidents, and illustrations which are perfectly convincing. It employs agents and colporteurs to bring the cause before the people by the living voice and the circulation of its publication. It bespeaks the aid of Editors, Ministers, Teachers and all others in its heaven-born enterprise.

SHOOTING AFFRAYS.

The report of "shooting affrays", are getting altogether too common. It is high time public sentiment was aroused to their enormity. We shall not argue the question of their criminality. A much as we have denounced the duel, compared with this undue use of the pistol, it was the height of refinement. The "code of honor" compelled those who were aggrieved to take time for reflection, in which their mutual hatred might cool; took scrupulous care that both parties had equal opportunities—that neither had an advantage; and, above all, did not endanger the lives of men, women and children, who were in no way connected in the quarrel. But the modern custom ignores all these precautions. The lives of all who walk the streets of towns may be put in jeopardy. The assailant kills his enemy without allowing him any opportunity of defense. If duelling is murder, this street shooting is assassination.

What is needed to check these horrible crimes is the recognition of their real character. If one calls you a liar and you shoot him down, you are not defending your honor, but committing a murder. That honor must be very infirm which requires the carrying of weapons and the murder of every one who questions it. It is not a sense of honor, but hatred and anger, which inspire the crime. The "shooting affrays" are simply murders. When the popular sentiment recognize this fact, and classes the street bully with the assassin or the wife murderer, and punishes the guilty accordingly, these disgraceful "affrays" will be among the things of the past.

COMMENCEMENT OF THE JUDICIAL TERM—ATTORNEY GENERAL'S OPINION.

Asked by the Governor whether Judges and Solicitors go out of office on election day or hold over until their successors are qualified, Attorney General Hargrove renders a long opinion, the gist of which is contained in the following quotation.

I am of opinion therefore the terms of the first class end four years from the first Thursday of August, 1860, that is on the first Thursday of this mouth, on "election day,' and that on that day they go out of office, and not on the day of counting and comparing the votes of the counties of the District, or the qualification of their successors.

Of course this opinion has no reference to the terms of the Judges of the second and eighth districts, as I do not understand your question to refer to them, and therefore I give no opinion either one way or mother as to them,

The provision of the Constitution in regard to the terms of the Solicitors is contained in the same article (4th) of the Constitution which contains those concerning the Judges, and they are "officers" within the meaning of the same section (22) of that article above referred to. I am of opinion, for similar reasons, that their terms ended on the first Thursday of August, 1874, the day of the election. Whether Judges holding over and continuing to act are Judges *de facto*, and whether their judicial acts are not binding as between parties, is not required of me to decide, and admitting that they are, can not effect the answer to questions propounded,

The Attorney General thus states how the apparent difficulty of having no Judge and Solicitor between the election and the day of the qualification of the officers can be avoided.

Suppose that it is said that this construction would leave these Judicial Districts without a Judge from the first Thursday in August (election day) until their successors are elected and qualified. Yet, Judges although elected for certain Districts, being empowed to exercise their functions in all parts of the State, no material inconvenience is imposed on these Districts, except possibly the not holding of one term of their Court, and that is only temporary. They could obtain the services of other Judges at Chambers, if necessary, in cases requiring immediate action. But, however that may be, I can only say *ita lex scripta est*, and that there are, in the meantime, six Superior Court Judges in office capable of transacting any business in the temporarily vacant Districts. This may have been one of the reasons for causing six of the Judges to go out of office at one time, and six others four years afterwards. It, nevertheless, this temporary vacancy is considered inconvenient, it may hereafter be remedied by the Legislature.

REFLECTIONS.

The NORTH CAROLINIAN always tries to look upon the sunny side of life. From its shadows which are oppressive, he ever endeavors to get away as far as possible. And yet who is there that thinks at all, light hearted though he be, that does not at times feel doubts about the future? Shall we live hereafter? These are questions that involuntarily come to us at all times. Hope says yes, and yet we know not. These reflections have been suggested at this time on reading the following from the eloquent pen of one who had thought earnestly on the subject—the late GEORGE D. PRENTICE:

"The fiat of nature is inexorable. There is no appeal for relief from the great law which dooms us to dust. We flourish and fade as the leaves of the forest, and the flowers that bloom and wither in a day have no frailer hold upon life than the mightiest monarch that ever shook the earth with his footsteps. Generations of men will appear and disappear as the grass, and the multitude that thronges the earth to day will disappear as the footsteps on the shore. Men seldom think of the great event of death until the shadow falls across their own pathway, hiding from their eyes the faces of loved ones whose living smiles was the sunlight of their existence. Death is the antagonist of life, and the cold thought of the tomb is the skeleton of all feasts.

We do not want to go through the dark valley, although the passage may lead to Paradise; we do not want to lay down in the damp grave, even with princes for bedfellows. In the beautiful drama of Ion, the hope of immortality, so eloquently uttered by the death devoted Greek, finds deep response in every thoughtful soul. When about to yield his young existence as a sacrifice to fate, his Clemantha asks if they should meet again, to which he replies: 'I have asked that dreadful question of the hills that look eternal—of the clear streams that flow forever—of the stars among whose fields of azure my raised spirits have walked in glory. All were dumb; but upon thy living face I feel there is something in the love that mantles through its beauty that cannot wholly perish. We shall meet again, Clemantha.'"

THE LUMBER MEN'S ASSOCIATION.

As announced in our columns at the time the leading Lumber men of Virginia and North Carolina met in convention at Norfolk on the 30th of July At that Convention the iniatory steps were taken to form an organization to promote the lumbering interest and mutually protect those engaged in its manufacture. The Convention adjourned to meet again at Norfolk on the 3d inst. At the time appointed the adjourned meeting was held and "The Yellow Pine Lumber Manufacturing Association" formed. They completed their organization by electing officers, adopting a constitution and by-laws etc. That some action is needed to make the manufacture of lumber a self-sustaining business is clearly evident. Because of lack of unconcerted action the present supply is hundreds of millions of feet in excess of the demand. The market being so largely glutted puts down the prices to ruinous figures. One of the objects of this Association, as we understand it, is to try to regulate the manufacture of lumber so as to reduce the supply to the demand. Until this is done the business will never pay.

IMPORTANT ACTION BY THE PRESIDENT.

President GRANT has addressed the following letter to the Secretary of War. The letter is brief and forcible, and shows the disfavor with which the President has learned of the growing disorders throught the Southern country, and pointing out the steps necessary to be taken to prevent their recurrence, to punish the guilty, and to make free speech possible for all classes of citizens south of Mason and Dixon's line. The following is the letter:

LONG BRANCH, N. J., }
Sept. 2, 1874. }

Gen. W. W. Belknap Secretary of War:

The recent atrocities in the South, particularly in Louisana, Alabama, and South Carolina, show a disregard for law civil rights, and personal protection, that onght not to be tolerated in any civilized government. It looks as if, unless speedily checked, matters must become worse until life and property there will receive no protection from the local authorities, such authority becoming powerless. Under such circumstances it is the duty of the government to give all the aid for the protection of life and civil rights legally authorized. To this end I wish you would consult with the Attorney General, who is well informed as to the outrages already committed, and the localities where the greatest danger lies, and so order troops as to be available in case of necessity. All proceedings for the protection of the South will be under the Law Department of the Government, and will be directed by the Attorney General in accordance with the provisions of the late enforcement acts. No instructions need therefore be given the troops ordered into the Southern States, except as they may be transmitted from time to time on advice from the Attoney General, or as circumstances may determine hereafter.

(Signed) Yours truly,
U. S. GRANT.

The Attoney General has issued a circular letter of instruction addressed to all United States Marshals and United States District Attorneys in the South, calling their attention to the existing disorders. The following is the circular in question:

DEPARTMENT OF JUSTICE, }
WASHINGTON, Sept. 3, 1874. }

SIR: Outrages of various descriptions, and in some cases atrocious murders, have been committed in your district by armed men, sometimes in disguise, and with the view, it is believed, of overawing and intimidating peaceable and law abiding citizens, and depriving them of the rights guaranteed to them by the Constitution and laws of the United States. Your attention is directed to an act of Congress passed April 9th 1866, entitled "An act to protect all persons in the United States in their civil rights, and to furnish means for their vindication;" and to another passed April 20th 1871, entitled "An act to enforce the provisions of the fourteenth amendment to the Constitution of the United States, and for other purposes;" also to one passed May 30, 1870, entitled "An act to enforce the rights of citizens of the United States to vote in the several States of this Union, and for other purposes," which, with their amendments, make these deeds of violence offenses within the jurisdiction of the General Government. I consider it my duty, in view of these circumstances, to instruct you to proceed, arrest, and punish the perpetrators of these crimes, and to that end you are to spare no effort or necessary expense. Troops of the United States will be stationed at different and convenient points in your district for the purpose of giving you all needful aid in the discharge of your official duties. You understand, of course, that no interference whatever is hereby intended with any political or party action not in violation of law, but protection to all classes of citizens, white and colored, in the free exercise of the elective franchise, and the enjoyments of the other rights and privileges to which they are entitled under the Constitution and laws as citizens of the United States.

The instructions are issued by the authority of the President, and with the concurrence of the Secretary of War.

Very Respectfully,
GEO H. WILLIAMS,
Attorney General.

Mayor Ludlow of Norfolk, Va., is credited with great success in treating pear blight with "boiled linseed oil applied copiously to the affected parts."

Frederick the Great kept an aid-de-camp who had a foot the same size as his own, to wear the royal boots until they were "broke in." Sometimes when he wore them too long he got kicked for his pains.

It is the opinion of Prof. E. E. White, ex-Superintendent of the Ohio schools, that no man is fit for the position of teacher "unless his knowledge of what he teaches is so fresh and thorough that he would be able to teach if all the text-books in the world were burned up."

The Massachusetts Teacher says: "Teachers too often lose sight of the noteworthy fact that dull scholars are not to blame for their dullness any more than they are for the color of their hair." And the writer is severe upon teachers who show "a marked partiality for good scholars and a noticeable dislike and neglect toward those who are dull.".

Romantic is the story of what happened upon the extensive farm of Col. J. C. Meyers, a little west of Omaha. He engaged with other harvest hands a good looking, smooth faced young person of "a symmetrical built.' The Colonel found out that his young harvester was of the female persuasion. "Why do you thus unsex yourself?" said the Colonel, kindly but paternally. She explained that it was owing to adverse circumstances and the difficulty which girls find in getting work. This, she said was not her first appearance in the harvest field. Col. Meyers was a brother Colonel. He was kind but he was moral. His workmen had discovered the secret, and he felt compeled to pay this Miss Maud Muller in man's attire and to discharge her. This he done with the utmost politness; and the poor girl departed to try her luck in fresh fields and pastures new.

"WE AND OUR NEIGHBORS"

is the latest and raciest work by

HARRIET BEECHER STOWE,

Author of "*Uncle Tom's Cabin,*" "*The Minister's Wooing*" "*My Wife and I,*"

and other powerful stories, each the literary sensation of its period; and this story promises a like genuine and *Wholesome* sensation; It bears directly on social topics of interest, embracing the romance of yonthful companionship' the brightness of happy homelife, the spicy complications of neighborhood association, and such follies and profound domestic miseries as have led to the widespread *Temperance* movement of the day.

Mrs STOWE is now in the prime of that genius which wrote "*Uncle Tom,*" ripened by years of study and observation. Her novels are immensely popular, "*Uncle Tom's Cabin*" alone out-selling by hundreds of thousands any edition of any original work ever published—*save the Bible.* Her book two years ago, "*My Wife and I,*" outsold every contemporary. Such a pure and ennobling story as "*Wife and Our Neighbors*" should be read in every home. This attractive Serial is just beginning *exclusively* in the

WISTAR'S BALSAM OF WILD CHERRY

THE GREAT REMEDY FOR

CONSUMPTION

Which can be cured by a resort to this standard preparation, as has been proved by the hundreds of testimonials received by the proprietors. It is acknowledged by many prominent physicians to be the most reliable preparation ever introduced for the relief and cure of all Lung complaints, and is offered to the public, sanctioned by the experience of over forty years. When resorted to in season it seldom fails to effect a speedy cure in the most severe cases of Coughs, Bronchitis, Croup, Whooping Cough, Influenza, Asthma, Colds, Sore Throat, Pains or Soreness in the Chest and Side, Liver Complaint, Bleeding at the Lungs, &c. Wistar's Balsam does not dry up a Cough, and leave the cause behind, as is the case with most preparations, but it loosens and cleanses the lungs, and allays irritation, thus removing the cause of the complaint.

THE DAILY GRAPHIC

The only Illustrated Daily Newspaper in the World.

With its issue for March 4, 1874, THE DAILY GRAPHIC entered upon the second year of a career phenomenal in the history of journalism. Its story of a twelvemonths has been a steady and unquestioned growth in popular acceptance as the most original, artistically luxurious, and wonderfully comprehen-sive metropolitan journal ever published in the United States.

As a brilliant novelty, the whole country has confessed its unique attraction; as a practical and marvellously complete Newspaper, it has become a daily necessity to the social and mercantile interests of one of the largest permanent constituencies ever attained by a journalistic enterprise in the same period, while its great specialty, beyond all actuality or hope of competition, is

A SUPERB PICTORIAL MIRROR

OF

DAILY HISTORY,

has been the wonder, delight, and new education of individuals and homes in every State of the Union. In the very idea of such utilization of the finest pictorial art, for every day's information and reflection, there is all the charm of a romance; and the realization of that idea, made visible in THE DAILY GRAPHIC, is a practical and ever-varying assimilation of the most fascinating Ornament with the commonest Use which never palls upon even the most pampered taste. From the first issue the successive multitude of its pictures has been a perfect study of mechanical and journalistic development; the inevitable early imperfections of artists and others, not yet thoroughly trained in the new process, disappearing steadily in an as steadily increasing accuracy and beauty of artistic effects. Indeed this very illustration, from day to day, of the Time's spirit of progress in Art, as well as in Events has been an added and piquant interest, which is yet to be maintained for the public by unending future "Graphic" improvements. Scarcely more, however, for its beautiful portraits, trenchant cartoons, vivid news-etching, and unequalled reproductions of the world's choicest works of art, than for its unrivalled attractions as

A MODEL JOURNAL

OF

NEWS, SOCIETY, AND LITERATURE.

has THE DAILY GRAPHIC been nationally recognized and popularly welcomed. Its genuine editorial independence, wide sweep of intelligence, ever-varying department of literary and persona interest, sparkling correspondence and pungent criticisms, make it as much a favorite in the sanctum of the great Western or Southern or Northern newspapers as in the counting room and the family circle.

THE DAILY GRAPHIC is an Eight page Paper, published every afternoon (three editions), in time for the early mails to all parts of the country.

THE DAILY GRAPHIC has a larger average circulation—more copies printed and sold each day—than any other evening paper in New York excepting only the [penny] *News.*

THE DAILY GRAPHIC is a great newspaper, as well as the only illustrated daily paper. It has special correspondents everywhere, and it has a larger staff of writers and news-gatherers than any other evening paper in New York.

THE DAILY GRAPHIC is preserved for binding by hundreds of its readers in city and country. The annual subscriber gets a Pictorial History of the Year, a volume of twenty-four hundred pages, constituting a valuable record of events and a graphic panoroma of our time and progress,

TERMS:

To Mail Subscriber..... $12 a year.

☞New subscribers wishing to take THE DAILY GRAPHIC on trial, may send One Dollar and receive the paper four weeks. (Only One Dollar for a superb portfolio of illustrated news and literatnre, making upwards of two hundred large quarto pages, the whole equivalent to a volume of eight hundred pages, magazine size.)

Local and Personal.

☞ A lot of lumber has been wrecked near Body's Island.

☞ Gold at New York 109¼; cotton 17c, corn 90c.

☞ The U. S. Revenue Cutter, "*Active*," Capt. IRISH, is on a cruise at this place.

☞ Business men! advertise in the CAROLINIAN if you wish people to know what you have to sell.

☞ Hon. MILES H. EURE was qualified on Monday and opened Court at Elizabeth. We have no doubt at all but he will make an excellent Judge.

☞ We take pleasure in calling attention to the advertisement of the Belvidere Academy. It is certainly one of the best educational institutions in this country.

☞ What has become of all our local correspondents? We want an occasional letter from each town in the District. Come friends, keep us posted. Write us short letters giving us all the news.

☞ Hon. W. H. HOWERTON, Secretary of the Commonwealth, will accept our thanks for a copy of "The Legislative Manual and Political Register of the State of North Carolina" by Col. JOHN H. WHEELER. As a book of reference it is invaluable.

☞ WM. ETHERIDGE has been elected Keeper of the Poor House of this county for two years, to take charge on the 1st of January next, and Dr. JOSEPH CUMMINGS has been elected Physician, to take charge at once.

☞ The excursion of the much puffed up Democratic jubilee at little Washington was the grandest fizzle of the season. Capt. SOUTHGATE, the genial and popular commander of the *Pamlico* was induced to make special arrangements for a large crowd from this section, but he'd dwindled down to about *three*, excepting the dead heads.

☞ The new Board of Commissioners of this county qualified on Monday. Dr. P. JOHN was unanimously elected Chairman and WALTER F. POOL Esq., re-elected Attorney. THOMAS P. WILLEY was handed and was sworn in as Register, THOMAS MEADS as Treasurer and JOHN T. PRICE as Sheriff. For proceedings see another column. MILES COMMANDER qualified as Probate Judge on Tuesday and took charge of the office this morning.

☞ On our first page this week will be found the list of Premiums offered by the Albemarle Agricultural Society at its second annual Fair. The Managers regret that it is not expedient to offer larger premiums to exhibitors; they must regulate their disbursements by their estimated income. Were they improvident enough to enter into debt who is there that would come forward and help them out? And now it remains for the people to determine whether the Fair shall be a grand success or not. It is for the farmers, the manufacturers the merchants, the tradesmen and the artists to furnish the various articles which go to make up a great Agricultural and Mechanical exhibition. There is hardly a person in the country who has not something that is worthy a place in one of the departments, and it is a duty they owe to their neighbors to bring it forward. In this way, and this only, can the Fair be made a perfect success. If you desire an exhibition that will meet the approbation of every man, show your good will in works. Look about you and see wherein you excel. Take something to the Fair. Encourage your neighbor to do the same. If your stock, or farm products, or samples of workmanship are not just what you like to have them, no matter—take them along. Let all labor for the good of the Fair; then there need be no fears of failure.

☞ That this country needs more population is generally conceded. That this can only be accomplished through immigration is likewise understood and admitted. The NORTH CAROLINIAN has not been silent on this subject. It has used its influence in this direction, and not entirely in vain. Its fruits are to be seen in what Northern capital and energy have done for Elizabeth City. But it cannot accomplish impossibilities. It cannot change the law governing Northern emigration. It is a settled fact that the intelligent wideawake Northern emigrant will not settle in a country where there are no railroads and telegraphs. You may talk and print as much as you please about climate and soil and natural advantages, *he won't do it.* And we have realized this for a long time. Hence our earnest and persistent advocacy of the railroad. It is delayed it is true, but not abandoned by any means. *It must not be.* The salvation of this country—its growth and development and prosperity—is dependent upon its completion. And when this is done we can have population, and that too of the kind we need—not adventurers and "no'er do wells"—but a kind with *will and ability* to utilize the boundless resources awaiting the hand of skill and the purse of capital.

☞ An effort is being made by the Butchers of this city to rent a large building in a central position and establish a Meat-Market—each have their stalls in the same building. This, it occurs to us, would be an advantage, as parties going to market could have all the fresh meet in town right before them to select from.

☞ No man can succeed as a politician who is not true to his friends. By promises and pledges he may achieve temporary success. Under the conviction that he is honest and sincere, friends will work for him. But if when the time comes to perform—to redeem his solemn promises, *he fails*, he should not feel disappointed if they become lukewarm and suffer him henceforth to "paddle his own canoe." The secret of the great success of our eminent public men is the fact that they are true to their friends and always redeem every pledge they make.

☞ The stealing and slaughtering of cattle and hogs is becoming quite too bold and frequent. Parties in town and in the country who have been missing their stock are making serious complaints. It is inconvenient—almost impossible for them to keep their cattle and hogs under constant guard or penned up with lock and key, and yet their experience is that where this is not done they run the risk of losing them—having them taken by those who prowl about on dark and stormy nights seeking plunder. Thus far the guilty parties have escaped legal detection. Suspicions for some time have been strong but there has been no *legal* proof. The sufferers insist that the most of those stolen and slaughtered cattle, steers, hogs and shoats have found a market in this city, and they have begged that some means be adopted to stop this business, or at least to afford them some means of tracing and identifying their property. Believing the request a reasonable one the City Commissioners, at their meeting on Monday, adopted an ordinance (see proceedings) the enforcement of which will not only aid in the identification of stolen property of this kind but it will protect the innocent purchaser from the suspicion of winking at, aiding or abetting this nefarious traffic that has been carried on for some time. And until this traffic is stopped there is no encouragement for anybody, and especially for farmers, to pay the attention they should to raising fat cattle and hogs either for themselves or for market. There is no country where both can be raised cheaper—where this branch of husbandry could be carried on so profitably, but if they are not to be protected they will abandon it and oblige us all to send our money North for beef and pork that ought to be raised cheaper and better here at home. We feel indignant and will spare no effort in remedying this intolerable evil. We care not who the guilty are—whether white or colored let them be caught and then let the severest penalties of the law be meted out to them. We learn that it will not be healthy for these night prowlers to be caught around some of their recent haunts. We never justify violence, but it is our honest conviction that powder and shot have been put to *worse* use than that of hurting thieves of this character.

THE CANT OF IMPOSTERS—It is obvious that physical and constitutional vigor is the best defense against disease, that even the vendors of drastic purgatives advertise them as tonics, stomachics and invigorants, in the hope of enlisting the confidence of the public in the devitalizing and pernicious portions It is amusing to note how the e impostors imitate and copy the language in which the medicinal properties of Hostetter's Stomach Bitters are described Although the effect of their rasping evacuants is to destroy the tone of the digestive organs and the bowels, and to rob the system of its vital strength, they are unscrupulously recommended to the weak and prostrate victims of disease as stimulants! It is time this humbug (not a very successful one it is true, thanks to the mature common sense of the American people) was stigmatized as it deserves Such mischievous falsehoods should be exposed pro bono publico Hostetters Stomach Bitters, be it distinctly understood is a stimulant I has a spirituous basis, and that basis is the vehicle which diffuses its wonderful sanitary principles through every part of the system The tonic, alterative and regulating ingredients of the Bitters would be comparatively inert if they were not, so to speak, carried to the localities where they are required by the stimulating agent The cant which protests against the use of a pure alcoholic fluid, when employed as a means of giving full effect to medicinal extracts of the highest utility, is the cant of charlatanism Every intelligent physician so characterizes it, and the sick who are griped, convulsed and debilitated by the nauseous and disgusting nostrums of the parties who put it forth soon find to their sorrow that it is a delusion and a snare Hostetter's Bitters, the great sanitary stimulant of the age, is, in the truest sense of the word, a wholesome, vitalizing, renovating preparation.

TWO AMERICAN MAGAZINES.—

The excellence of AMERICAN MAGAZINES has become so well recognized abroad that one of the leading English Papers, the LONDON WEEKLY REGISTER, in a recent issue, thus speaks of SCRIBNER MONTHLY.

"We are constrained to own that SCRIBNER'S MONTHLY carries off the prize against all shilling monthly serials for brilliancy of illustrations and variety of contents. It is simply a wonderful shillen's worth. Nothing can be more charming than the cuts,—full of force and vigor; the light and shade are managed with a truly artistic power. Out of its one and twenty original articles, we really do not know which to choose as best, for each and all are excellent."

Not only is it true that Scribner [illegible] excels the English Magazines, but it is Best of the American Monthlies

In the extent, variety and artistic its illustration of American [illegible] ver been even approached, much [illegible]. It has a large page and [illegible] er variety in its contents than the Standard American Monthly.

In literary character, and in [illegible] and ability of its Editorial [illegible] equal pre-eminence.

Its contributors started with the [illegible] of making the best magazine in [illegible] which they have for a moment [illegible] they point with pride and pleasure [illegible] May 1st. June numbers, recently issued and ask for them a candid examination and a careful comparison of their merits with those of other magazines; and they renew their pledge to the public to strive for still higher excellence in the future.

A considerable demand has recently arisen in England for Sir. Nicholas, Scribner's New magazine for boys and girls, one publisher desiring to secure an edition of three thousand of first bound volume (when completed) with his imprint.

The success of St. Nicholas in this country has been even more remarkable than that of Scribner's Monthly. It is pronounced to be "an ideally perfect magazine for children" and, as is the case with all the best literature for children, it has been found to possess surpassing interest for grown-up readers, as well.

The influence of the periodicals of the day can scarcely be estimated, especially upon the rising generation. Parents and teachers cannot afford to be indifferent to this influence, or careless in relation to the character of the literature furnished to the children outside of their school lessons. In St. Nicholas not only are History, Natural Philosophy, Literature Fine Arts, and manufactures presented in and attractive way to young readers, but the children are stimulated to seek information for themselves,

The Publishers will send to any address a specimen number of St. Nicholas, postage prepaid, on receipt of ten cents, the bare cost of paper and printing. The magazines are sold by all firstclass Book-sellers and Newsdealers, everywhere.

The Narragansett Turkey.

This is one of the largest and hardiest of all breeds of turkeys. It is raised in the greatest perfection in Southeastern Connecticut and Rhode Island, a region famous for its fine poultry. Turkeys do remarkably well along the sea board, and almost every farmer remote from the villages has his flock. It is not uncommon to find flocks of from one to two hundred birds, the product of about a dozen hens, under the skilful management of a poultry woman or boy. Of course, they do some damage to grain; but this evil is counterbalanced by the enormous destruction of insects secured. From June to September they subsist mainly upon grasshopers, crickets, and other insects, ranging for the most part in the pastures and woodlands. They are fattened in October and November, and it is not uncommon for a lot of early chicks to reach the average weight of fourteen pounds, dress, at Thanksgiving or Christmas. The common run of turkeys sent to the New York market do not average more than eight or nine pounds. The Narragansett is a very large, healthy bird, and has been bred for size for many generations. Most of the birds sold in the Boston and Providence market under the name of Rhode Island Turkeys or Extra No 1, are of this breed. The farmers are careful in the selection of their breeding stock, taking young gobblers that will weigh from twenty-two to twenty-eight pounds, and hens that will weigh from twelve to sixteen. Where the birds are kept over, gobbles will sometimes dress thirty-two to thirty-four pounds. For making poultry for market, the Narragansetts have no superior. The prevailing colors are white and black, with a large patch of white upon the wing bow, giving the general impression of a gray bird. They are not uniform in the shading, but with sufficient painstaking, could be bred to a feather.—*W. Clift in the poultry World.*

Feed Fowels a little and often.

It is a very careless method of feeding fowls which we see so often adopted, where the grain is trown down in great heaps on the ground or floor. It is not only wasteful, but injurious to the fowls, because they get over-fed, and it is in an important respect contrary to their habits For their nature is to "scratch." Watch the old hen with a brood when she is just let out of the coop. She hardly stirs from the spot, but as soon as she has realized her freedom, down go her claws into the soil, and afterward, whenever you see her, she is at it.

Always feed, then, no more than can be eaten at once, and take care that this is so scattered amongst some light rubbish, that they may have the luxury of scratching for it. If feed is buried in fresh earth then they get, with their mouthfuls of, grain, something of use to their peculiar digestive organs. Grain however, should not be allowed to come in contact with the filthy tainted soil too often found in poultry-yard—*The Poultry World.*

The Rules for Farmers.

1. Take good papers and read them.
2. Keep an account of farm operations.
3. Do not leave impliments scattered over the farm, exposed to snow, rain, and heat.
4. Repair tools and buildings at a proper time, and do not suffer subsequent three-fold expenditure of time and money.
5. Use money judiciously, and do not attend auction sales to purchase all kinds of trumpery because it is cheap.
6. See that fences are well repaired, and that cattle are not grazing in the meadows, or grain fields, or orchards
7. Do not refuse to make correct experiments, in a small way, of many new things.
8. Plant fruit trees well, care for them, and of course get good crops.
9. Practice economy by giving stock shelter during the winter, also good food, taking out all that is unsound, half rotten, or mouldy.
10. Do not keep tribes of cats and snarling dogs around the premises; who eat more in a month than they are worth in a life-time.—*Morning Star.*

Flies on Horses.

The Journal of Chemistry gives the following simple receipt for the prevention of flies on horses.

"Take two or three small handfuls of walnut leaves, upon which pour two or three quarts of cold water: let it infuse one night, and next morning pour the whole into a teakettle and let it boil for a quarter of an hour, when cold it will be ready for use. No more is required than to moisten a sponge, and before the horse goes out of the stables let those parts which are most irritable be smeared over with the liquid, namely, between and upon the ears, the neck, the flanks, &c. Not only the gentleman and lady who rides out for pleasure will be benefited by this, but the coachman, wagoner and all others who use horses in the hot months.

Brand For Horses.

Brand when fed to animals is laxative, and on this account should not be fed to a horse in any quantity when hard work is at all required of them, because weakness is caused by this relaxation of the bowels, and great injury inflicted. The theory that introduces brand into the horses stables is as pernicious in its effects as the indiscriminate use of brand itself is the whim of the stableman, and the theory is, that horses, sick or well, should be fed on branmashes. A little bran with other and more substantial articles of food may, however, be occasionally given with advantage, but always taking care not to feed it in quantities to give rise to looseness of the bowels, nor be counted to the poor horse as so much other food, for in doing so, you not only deceive yourself, but cheat your horse.—*Journal of Farm.*

If an edge tool is so hard as to crumble, grind it on a dry stone until the edge turns blue; it will then cease to break, and the temper will then generally prove to be about right. Scythes and axes are sometimes too hard at the edge, but if treated in this way it will give no further trouble.

An old gentleman died recently at Allentown, Pa., who had been married four times, the ceremonies having taken place on his fortieth, fiftieth, sixtieth, and seventieth birthdays.

Cows do not, on an average, produce more than half the milk they would if well-fed and cared for. Little misses bring little milk.

A minister ouce prayed: "O Lord we thank Thee for the goodly number here to night, and that thou art here notwithstanding the inclemency of the weather.

A Prairie Farmer corrispondent declares that dipping the legs of fowels in kerosene oil is a sure cure for scurvy.

VINEGAR BITTERS
VEGETABLE FREE FROM ALCOHOL
PURELY CALIFORNIA
DR. WALKER'S
EUREKA
VINEGAR BITTERS

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs in Bilious Diseases.

If men will enjoy good health, let them use VINEGAR BITTERS as a medicine, and avoid the use of alcoholic stimulants in every form.

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Grateful Thousands proclaim VINEGAR BITTERS the most wonderful Invigorant that ever sustained the sinking system.

Bilious, Remittent, and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to DR. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc., etc. In these, as in all other constitutional Diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys, and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.

For Skin Diseases, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ringworms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthelmintics, will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of womanhood or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

Jaundice.—In all cases of jaundice, rest assured that your liver is not doing its work. The only sensible treatment is to promote the secretion of the bile and favor its removal. For this purpose use VINEGAR BITTERS.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

DESCRIPTIVE CATALOGUE.

OF VALUABLE

NORTH CAROLINA LANDS,

FOR SALE BY

GEORGE D. POOL.

Real Estate Agent,

ELIZABETH CITY, N. C.

In presenting my list of lands and other properties for sale, I would say that no section of the United States offers such inducements for capitalisis and emigrants, as this section of North Carolina. In longevity and healthfulness, it will compare favorably with any where; and in easy and cheap transportation of products to market, in pleasantness of climate, in the sociability of the people, in great fertility, and durability of soil, no section can equal it.

A railroad will soon be buil to Norfolk, putting this place in direct communication by Rail, with the whole United States. This, together with our great fishing, farming and manufacturing interests, and certain early completion of already projected works of improvement for putting in nearer, cheaper and easier communication with the Ocean, will render this one of the most important commercial, and manufacturing points on the Southern country.

A desirable house and lot in the town of Elizabeth City on the corner of two principal streets, the principal one, and situated in the best business locality in the town. The lot contains about two acres of land, and the buildings consist of a fair dwelling three stories high, another two story building with four rooms and pantries, dairy, smokehouses, stables, &c. The dwelling has a good cellar under it. There is room on the front lot to erect two good stores, and they would occupy the best stand in the town for merchandize.

A farm of 700 acres in Pasquotank County 10 miles from town, with fine two story dwelling, large barn, kitchen and other outhouses; as also, two other dwellings. barns and other houses at different points on the farm. This farm is all cleared but 150 acres, is free from swamps and other waste land, and is well adapted to raisiug corn, wheat, cotton, oats, &c. The price is 14,000 in easy payments.

A farm of 500 acres in Pasquotank County, 6 miles from town, and one mile from the River, with good new dwelling built in modern style, barn, stables, four tenant houses scattered over the farm, fine water, &c. This farm is situated on the most public road in the County, has 300 acres cleared and balanee in splendid pine, oak, cypress, maple, sweet gum, and other valuable timber. It is peculiarly adapted to raising cotton, $50 per acre, net, having been realized on a part of it this year in cotton. It also grows corn, wheat, oats, and other crops well. Price $12,000 in easy payments.

Two tracts of land lying on Pasquotank River four miles from town, neatly cleared, and in good cultivation, one contains 1,000 acres, and the other 600 acres. Both have good fisheries. and the land is equal to any in this section. Price $20.00 per acre in easy payments. Also several smaller tracts for sale, ranging from 50 to 100 acres each, at low prices, and on easy terms.

Also two fine farms in Pasquotauk county, 10 miles from E. City, within half mile of church. school house and post office. One tract contains about 400 acres, with fair buildings and mostly cleared, and the other contains 300 acres, with good two story dwelling, large barn, and other outhouses, both are offered at $20 per acre, one third cash, balance in one and two years.

Three farms—one of 100 acres, one of 80 acres and one of 190 acres, within two miles of town, mostly cleared land. Price $20 per acre for each tract—payments on easy terms. Also many other valuable farms and town lots too numerous to mention.

Sarsaparillian Resolvent
THE GREAT BLOOD PURIFIER.
HAS MADE THE MOST ASTONISHING CURES: SO QUICK, SO RAPID ARE THE CHANGES, THE BODY UNDERGOES, UNDER THE INFLUENCE OF THIS TRULY WONDERFUL MEDICINE, THAT
Every Day an Increase in Flesh and Weight is Seen and Felt.
Every drop of the SARSAPARILLIAN RESOLVENT communicates through the Blood, Sweat, Urine, and other Fluids and juices of the system the vigor of life, for it repairs the wastes of the body with new and sound material. Scrofula, Syphilis, Consumption, Glandular Diseases, Ulcers in the throat, Mouth, Tumors, Nodes in the Glands and other parts of the system, Sore Eyes, Strumorous discharges from the Ears, and the worst forms of Skin diseases, Eruptions, Fever Sores, Scald Head, Ring Worm, Salt Rheum, Erysipelas, Acne, Black Spots, Worms in the Flesh, Tumors, Cancers in the Womb, and all weakening and painful diseases, Night Sweats, Loss of Sperm and all wastes of the life principle, are within the curative range of this wonderful Modern Chemistry, and a few days' use will prove to any person using it for either of these forms of disease its potent power to cure them.
If the patient, daily becoming reduced by the wastes and decomposition that is continually progressing, succeeds in arresting these wastes, and repairs the same with new material made from healthy blood—and this the SARSAPARILLIAN will and does secure—a cure is certain; for when once this remedy commences its work of purification, and succeeds in diminishing the loss of wastes, its repairs will be rapid, and every day the patient will feel himself growing better and stronger, the food digesting better, appetite improving, and flesh and weight increasing.
Not only does the SARSAPARILLIAN RESOLVENT excel all known remedial agents in the cure of Chronic, Scrofulous, Constitutional, and Skin diseases; but it is the only positive cure for

The Saturday Evening Post.
The Oldest and Best Story Paper Published.
Founded August 4th, A. D. 1821.
For more than half century the SATURDAY EVENING POST has been the
GREAT LITERARY WEEKLY
of the Country, and has ever born a widespread and unblemished reputation for the unsurpassed purity, refinement and excellence of the Serials, Sketches and Miscellaneous readiug matter.
It is pre-eminently
THE BEST FAMILY PAPER
that is published in this county, from its never containing anything that would offend the feelings of any one, either in a religious or political sense, or that could not be read at any fireside without objection from the most fastidious.
The circulation of the Saturday Evening Post, though not quite so large perhaps, as its younger contemporaries, is not, like that of some of them, fluctuating. and too often short lived, but
SURE, SOLID AND SUBSTANTIAL,
based upon the intrinsic merit of the paper itself, and not dependent on any extraneous influences, such as the popularity of individual writers, &c.
Good, however, as the Saturday Evening Post has been in the past, it is our intention to make it still better in the future, and with this object in view we will effect a marked improvement in every department of the paper and will call to our assistance writers of admitted ability and known reputation.
By increasing its former attractions, and adding many judicious and pleasing novelties by studying how to please and cultivate the popular taste, by increasing industry and enterprise, and by enlarged facilities, we hope to make new friends with each and every issue, and continue to maintain the claim of the Saturday Evening Post to its title of *The Oldest and the Best* of Family Story Papers.

THE GREAT BALOON.
You've heard about the great balloon,
In which Professor Wise
Proposed to go to Europe,
By sailing through the skies,
He proposed to show the people
A quicker way for trips
Than ever had been known before,
By sailing o'er in ship.
Well everything seemed lovely
Upon that Autumn day,
When they began to pump in gas
To bear the barge away.
They pumped and pumped with all their power,
And things seemed nigh adjusted—
When there came an awful crash,
And the mighth bubble busted.
It's ever thus in human life,
Go whereso'er we may,
The darkest night will oft succeed
The brightest, sunniest day,
There are exceptions to this rule,
Where all the days are fair,—
For one, go down to JOHNSON HALL,
You'll find things all right mere.
We've thought it best in cases like this,
This little fact to mention;
You need net ferr that they'll inflate
Beyond their power of retention.
And when they undertake to go
Their geer's so well adjusted,
They'll move straigh forward to their work,
With no fear of being "busted."
